

Open the Door to a New World of Mini-Car Quality

The Cuore rides to the forefront of an exciting new generation of mini-cars with entirely new standards of quality.

With the new Cuore you'll find elegant, flowing styling with new-generation appeal. Bright, vivid body colours.

The cabin space of cars a class above. High levels of safety and comfort. Outstanding basic performance.

And among the world's best fuel economy in a petrol car. With the Cuore you'll find higher standards of quality inside, outside, and under the hood.

In other words, you'll find a superb mini-car that's perfect for today's new-generation lifestyles.

A Mini-Car That's World-Class All the Way

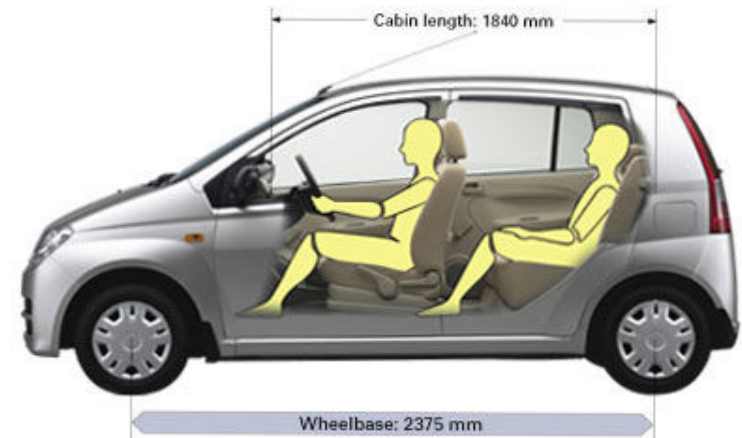

The Finest Design in Its Class

The Cuore achieves a unique engineering feat by combining a smart aerodynamic form with superb comfort for all aboard. Nicely accented by distinctive edging, the Cuore design embodies the high quality within

The Best Basic Performance in Its Class

The Cuore races to the head of its class in comfort, driving performance and collision safety. No other car in its class comes close. And on top of this, the Cuore delivers a level of fuel economy that ranks among the world's best in a petrol car.

The Most Spacious Cabin in Its Class

The Cuore cabin is wider and longer than ever, creating the overall interior spaciousness of cars one class above. Doors that open nearly to a right angle combine with slightly higher seating positions to allow easy entry and exit.

Doors that Open Wide to a World of Relaxation

Comfortable Driving Positions for People of All Sizes and Physiques

Daihatsu believe that a comfortable driving position is just as important in small cars as in larger luxury cars. Accordingly, we equipped the Cuore with a host of adjustment features. In addition to a seat slide mechanism, the Cuore offers a tilt steering wheel, driver's seat height adjustment, and adjustable seat belt anchors. With the Cuore you'll find a driving position that's just right for you, no matter what your size or physique.

Large, Versatile Luggage Hold

In spite of its compact body, the Cuore has a large luggage-carrying capacity of 157 litres.* The split rear seat backs fold independently to accommodate a variety of cargo needs. *VDA measurement

Recycling Resources and Reducing Environmentally Harmful Materials

Using easy-to-recycle materials

We are aiming to integrate the type of materials we use to improve recyclability. This includes standardizing materials for plastic parts and simplification of materials. We have also prioritised the use of polypropylene, polyethylene and other easy-to-recycle thermoplastic materials for bumpers, instrument panels, headlining, and so on. In addition, we have adopted international material labelling on resin and rubber parts for easier identification during dismantling.

Utilizing recycled materials

We are using recycled materials to make more of our parts. For example, we recycle scrap bumpers for use as engine undercovers, battery cases for use as seat undertrays, and shredder residue for use as instrument cushioning for some models.

Reduced use of substances that burden the environment

We are working to prevent the use of hazardous substances, such as lead, mercury, cadmium, and hexavalent chromium. The Cuore complies with the EU end-of-life vehicle directive, effective 1 July 2003, which prohibits the use of hazardous substances that create problems during product disposal.

Item	Model		5door
Overall length	mm		3410 (3395 : without a front licence bracket)
Overall width	mm		1475
Overall height	mm		1500
Interior length	mm		1840
Interior width	mm		1300
Interior height	mm		1240
Wheelbase	mm		2390
Track	12 th tyre	Front mm	1320
		Rear mm	1310
	13 th tyre	Front mm	1310

Tyres	12 th tyre		145/80R12
	13 th tyre		155/65R13
Trailer towing	With brake	Kg	600
	Without brake	kg	250

Impressive Yet Solid, the Cuore's Aerodynamic Form Expresses Total Quality

Slip in and Enjoy the Quality

Throughout the Cuore interior you feel the refinement and sophistication expected of cars a class above. The dashboard's flush surface treatment contrasts nicely with the sculptured centre cluster and large extending centre meter cluster. Complementing this raised level of quality, the gently rounded instrument panel has a finely dimpled texture for a pleasing touch and tasteful appearance.

Luxurious Seating with Plenty of Room to Relax

These comfortable seats are arranged to take full advantage of the spacious interior, providing a level of relaxed seating that you might find surprising in a mini car. Fine fabric in the seat upholstery and door trim give this interior a plush feeling throughout.
